Pentafill® L+Fill

Bench-top machine for filling and sealing single-dose plastic containers

Bench-top machine for lab research and small quantity start-up production that meets the same industrial standards as higher-capacity Pentafill models.

Overview

Whether you are looking to complete laboratory studies or produce small start-up quantities of single-dose plastic vials, the Pentafill L+ Fill allows you to mimic the results of industrial production via a compact, bench-sized machine.

- Machine includes a heating head, cold-molding pliers and a sealer
- Strip holder requires manual movement
- Interchangeable holders for different containers capacities
- Simple external controls
- Pentafill supported formats: 0.33 0.6 1 2 3 5 10 m

Pentafill® L+Fill

Bench-top machine for filling and sealing single-dose plastic containers

Pentafill L+Fill Technical Data

	L+Fill
Capacity	Up to 3 strips per minute
Voltage	220V - 50 Hz
Power consumption	2.5 Kw
Compressed air consumption	80 L/min
Chiller, water consumption	1,5 L/min
Chiller: MIN pressure	2 bar
Chiller: water temperature	14/16°C
Required pressure	> 6 bar
Weight (kg)	80
Dimensions LXWXH(mm)	900 x 570 x 600
